## General Permitting Information for Walls/Fences

Stepping through the approval process: PLAN REVIEW  PERMIT  INSPECTIONS

### 1. PLAN REVIEW

- **Provide 3 site plans** (see example and attached minimum requirements). PLEASE NOTE THAT SITE PLANS FOR LOTS WHICH ARE NOT PREVIOUSLY GRADED BY AN APPROVED PLAN AND/OR ARE OVER 35,000 SQUARE FEET WILL REQUIRE AN ENGINEERED SITE PLAN. *Incomplete site plans will not be accepted.*
- **Provide copy of wall detail** to be used for construction. The attached 6" and 8" standard masonry wall details can be used for the construction of walls up to 6' in height. A standard detail for the 4" Masonry Wall (aka "Dooley Wall") may be obtained from the Arizona Masonry Guild at 602-265-5999.

Note: The wall height dimensions cannot exceed the detail as shown.

### 2. PERMIT Please note the following requirements for obtaining wall permits over the counter:

- Plan review fees, if required, must be paid for the same day the plans are reviewed or submitted for review. This is true whether permits are issued that day or not.
- Permits can only be signed for by property owners or licensed contractors. All other persons involved with the project (including but not limited to relatives, architects, designers or construction managers) must have a statement signed by the property owner naming who has permission to sign and receive documents on the owner's behalf to obtain plan reviews and building permits at the City of Scottsdale
- On permits not listing a licensed contractor, an owner-occupied single family residence property owner can do the work themselves or act as their own general contractor and hire subcontractors to do the work. When choosing to do the work themselves, or to act as their own general contractor, the property owner or designee (see item above) must sign the "Owner-Builder Declaration form" required by the Tax Audit Division of the City of Scottsdale. For detailed information about this form call 480-312-2400 or visit [www.scottsdaleaz.gov/taxes](http://www.scottsdaleaz.gov/taxes).

### 3. INSPECTIONS

- An inspection card will be issued detailing the required inspections. The typical inspections are: footing, masonry grout, masonry bond beam, and final inspection. Note: actual inspections may vary depending on your project.

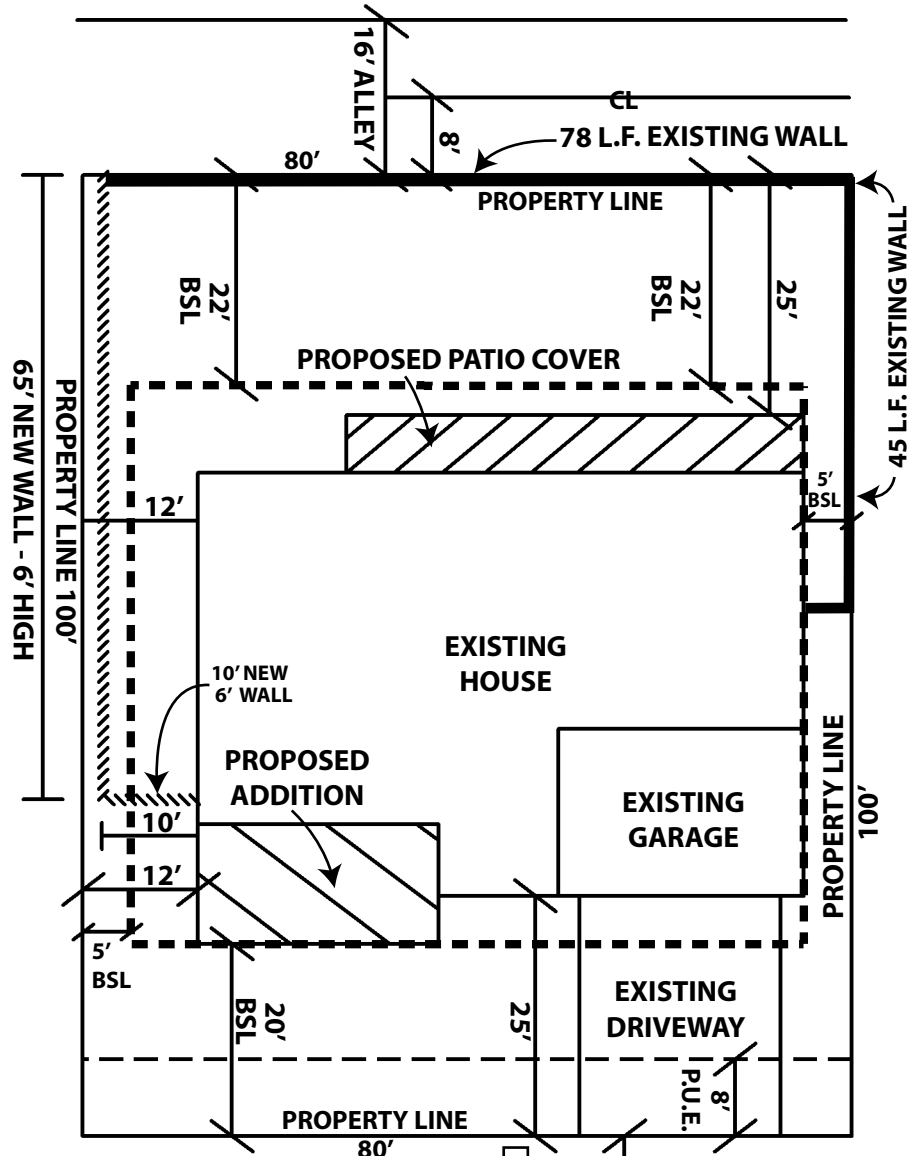

#### Additional Information:

- A building permit is required for the construction of new walls/fences taller than 3 feet, including wood, wrought iron, & corral fencing. A permit is required when adding additional height to an existing wall, or repairing a damaged wall (i.e. vehicle accident).
- Wall/fence height is measured from inside of enclosure from natural grade.
- A courtesy site plan review is required for walls 3 feet tall, or less, to verify location is compliant with the Zoning Ordinance and does not conflict with any easements.
- When proposing a new wall or footings for a wall on a shared property line, requires the written authorization of that property owner. (See attached.) The City does not get involved in property line disputes related to fence and footing locations, or fence ownership. These disputes are civil matters and must be resolved between the concerned parties.
- If a wall/fence is proposed within a public utility easement, written authorization is required from each utility company at the time of plan review. (see attached)
