

SURPRISES ARE FOR BIRTHDAYS, NOT MEDICATION COSTS.

Find out before you fill with the Price a Medication feature on myCigna.

When it comes to medication costs, nobody likes surprises. That's why Cigna created the Price a Medication feature. You can easily compare the price of a medication before you get to the pharmacy counter – or, even before you leave the doctor's office.

The Price a Medication feature lets you:

- › See how much your medication will cost you at the different retail pharmacies in your plan's network, as well as through home delivery^{1,2}
- › View lower-cost alternatives, if available
- › See which medications your plan covers (or doesn't cover)
- › View your costs for a 30-day and 90-day supply, depending on what your plan covers
- › Find out right away if your medication needs approval before your plan will cover it

Start using the Price a Medication feature on the myCigna App today.

Did you know your medication can cost you more or less depending on the pharmacy you choose?

When you and your doctor are considering the right medication for your treatment, knowing how much the medication will cost you – and knowing if there are lower-cost alternatives available – can help you avoid surprises at the pharmacy.

Together, all the way.®

1. Prices shown on myCigna are not guaranteed and coverage is subject to your plan terms and conditions. Visit myCigna for more information.

2. Not all plans offer home delivery as a covered pharmacy option. Please log in to the myCigna app or website, or check your plan materials, to learn more about the pharmacies in your plan's network.
